Other Tools :	**Git, GitHub, Render, Netlify, Vercel, Postman, VSCode, Eclipse, intellij**

Experience

Web Developer   January 2024 — June 2025

Hi-Technic Systems and Services, Ghatkopar, Mumbai

- **Hands-on Work with Industry Experts:** Gained practical experience and deep insights into professional web development practices.
- **Role:** Contributed to the PetsCare Staff project using the MERN stack. Primarily responsible for building the backend ecosystem from scratch while also assisting in frontend development using TypeScript, aligning with client and senior developer requirements.

Full Stack Developer – Training   February 2023 — June 2023

RST Forum, Dadar, Mumbai

- **Application Development:** Designed and maintained a fully functional e-commerce web application using the MERN stack.
- **Team Collaboration:** Worked closely with frontend developers to build dynamic UI components, optimize performance, and ensure seamless user experience.

Projects

BlogSy | *MERN Stack*

- **Platform:** Developed a blog platform with user authentications, update profile, add post, update and delete.
- **Features:** Users can follow/unfollow others after viewing their blogs, add blogs to a favourites section, view trending/latest blogs, and comment with appropriate timestamps.
- **GitHub:** github.com/yourusername/blogsy   **Video:** youtu.be/blogsy-demo

petsCare | *MERN Stack with TypeScript (Frontend)*

- **Platform:** Developed a pet care system for booking appointments, tracking health, and managing vaccinations.
- **Admin Role:** Admins manage doctors, services, categories, and pet records with appointment tracking.
- **GitHub:** github.com/yourusername/petscare   **Video:** youtu.be/petscare-demo

Quickify | *MERN Stack*
- **E-Commerce Platform:** Full-featured e-commerce app with authentication, product management, and PayPal integration.
- **Admin Dashboard:** Admins can add/update/delete products with secure PayPal sandbox integration.
- **GitHub:** github.com/yourusername/quickify **Video:** youtu.be/quickify-demo

CareConnect360 | *JSP, Servlets, SQL, JDBC, JS, jQuery, CSS, HTML*
- **Overview:** Healthcare system for booking doctor appointments, admin services, and doctor profile updates.
- **User Features:** Direct messaging with doctors for real-time consultation without appointments.
- **GitHub:** github.com/yourusername/careconnect **Video:** youtu.be/careconnect-demo
